

## NABCEP News

### 2020 NABCEP Continuing Education Conference Registration Now Open

The advanced-level content presented at the annual NABCEP CE Conference is geared toward PV industry professionals who have experience with PV installation, solar + storage, technical sales, design, O&M, or system inspection. This is the only industry event that allows NABCEP Board Certified Professionals to obtain as many as 21 hours of continuing education units needed to recertify. Noncertified renewable energy professionals seeking to advance their career can earn up to 18 hours towards becoming NABCEP Board Certified by attending the CE Conference.

If you're interested in sponsoring or exhibiting the event, please contact Sue McKeen at [smckeen@nabcep.org](mailto:smckeen@nabcep.org).

**HURRY! Early Bird registration expires on January 31, 2020. Register now and save \$150!**

## Call for Presentations at the 2020 NABCEP CE Conference

NABCEP announces its Call for Presentations for the 2020 NABCEP Continuing Education Conference in St. Louis, MO. You are invited to submit a presentation proposal for a 2-hour Panel Session during the CE Conference. Panels are composed of 3-4 subject matter experts, and presenters must agree to moderate their proposed Panel Session during the CE Conference. Submissions are due by November 1st, 2019.

### Requested Topic Categories

NABCEP's CE Conference has always evolved in response to new challenges, opportunities, and technical improvements in the PV industry. These categories set a new standard for field applications and solutions that will shape the future of the industry while helping us create a dynamic program related to improving quality in the field. Below are the requested topic categories:

- Battery storage
- Pairing Solar with EV Charging
- Quality Management for PV Installations
- PV Operations & Maintenance
- PV Design Platforms
- Rapid Shutdown for Commercial/Residential PV Systems
- Recycling PV Modules
- OSHA Compliance
- Bifacial Modules
- Microgrids
- Innovation in the Industry

If you have any questions or you want to submit a presentation proposal, email Dan Pickel at [dpickel@nabcep.org](mailto:dpickel@nabcep.org).

## Upcoming Webinar with BayWa r.e.

### Debating the State of Storage in 2019 - Webinar

**Date:** October 9th, 2019

**Time:** 1:00 PM EST

#### The Debate:

- Are consumers catching on? If so, what is motivating them to add storage to their project?
- Are solar contractors well-prepared and well-positioned to sell and install this technology?
- What is it going to take to get full-scale adoption?
- What are the roadblocks contractors face? From the product standpoint, the utility, the consumer?
- What impact will California's Title 24 have on storage adoption, if any?
- What tools should solar contractors have to be ready for the storage boom?

**Our panelists will debate these, and other important storage questions, in the first installment of a new educational series from BayWa r.e. and NABCEP.**

365 Pronto Platform is now Live

NABCEP Preferred Partner

## NABCEP MEMBERS GET FIRST OPPORTUNITY TO REGISTER FOR NEW SOURCE OF REVENUE

365 Pronto is excited to announce we have launched our **365 Pronto Platform**. As a NABCEP Preferred Partner, 365 Pronto is offering your company the opportunity to be the first to register and qualify to receive Work Orders from our Customers who need work done in your area. Your company and techs have to be registered in order to participate so register via link below.

365 Pronto is revolutionizing Renewable Energy O&M and installation processes by providing Customers and Providers (your company) an automated, real-time, smart, and on-demand solution. The **365 Pronto Platform** matches our Customer's needs, assets, and scope of work with qualified Providers and their technicians, automatically dispatching tickets to qualified Providers after Customer creation. Everything needed to complete the Work order is listed, and you are never obligated to accept any work orders. 365 Pronto remits payments to you upon the verification of job completion.

**Register Now** - As a NABCEP Provider, there is no User Platform Fee for the first year

To learn more about 365 Pronto: <https://365pronto.com/>

To register on the 365 Platform: <https://onboarding.365prontoplatform.com/>

If you would like additional information or have any questions please contact us through the website or at [info@365pronto.com](mailto:info@365pronto.com)

## Join NABCEP at SPI in Salt Lake City, UT

NORTH AMERICA  
**SMART ENERGY WEEK**  
September 23-26 | Salt Lake City, UT

**SOLAR  
POWER**  
INTERNATIONAL

**ESI**  
ENERGY STORAGE  
INTERNATIONAL

**SMART  
ENERGY**  
MARKETPLACE • MICROGRID

**H+fc**  
Hydrogen  
Fuel Cells  
International

Join the largest gathering of industry experts, leaders, and professionals from the solar, energy storage, smart energy, microgrid solutions, distributed wind, geothermal, and EV infrastructure industry for four days of networking and thought leadership at SPI, ESI, and North America Smart Energy Week from September 23-26, in Salt Lake City, UT. With more than 100 professional development opportunities including market insights, community solar, and customer acquisition topics and 750+ exhibiting companies, this is the only event you need to attend to grow your business in the U.S. market.

NABCEP Board Certified Professionals take 15% off your Full Conference Registration. Discount is only eligible if you are not a SEIA (national) or SEPA member.

For the 15% off Discount Code, please email Sue McKeen at [smckeen@nabcep.org](mailto:smckeen@nabcep.org)

**NABCEP will be at booth 339, so please stop by to see us!**

**Register for SPI**

**HOMER International Microgrid  
Conference**

Join NABCEP at the 7th HOMER International Microgrid Conference on October 7-9, 2019, Cambridge, MA. Learn about distributed generation for C&I customers, energy access in developing countries, campus microgrids, and improved energy resilience. Engineers, distributed energy developers, utilities, equipment manufacturers, and policymakers will share case studies from around the world. Learn to design microgrids with the HOMER software Oct 9th.

To take advantage of the **\$200 discount** for regular attendees' or the **\$100 discount** for government / non-profit employees affiliated with NABCEP, use: **OSGP2019**
