

NABCEP News- Happy New Year!

Early Bird Discount Expires on January 31st, 2020

The advanced-level content presented at the annual NABCEP CE Conference, which will be held in St. Charles, MO from March 16-19, 2020, is geared toward PV industry professionals who have experience with PV installation, solar + storage, technical sales, design, O&M, or system inspection. This is the only industry event that allows NABCEP

Board Certified Professionals to obtain as many as 21 hours of continuing education units needed to recertify. NABCEP Associate credential-holders may earn up to 12 hours CE hours towards renewal by attending the CE conference. Non-certified renewable energy professionals seeking to advance their career can earn up to 18 hours towards becoming NABCEP Board Certified by attending the CE Conference.

If you're interested in sponsoring or exhibiting the event (there are a couple of spots available), please contact Sue McKeen at smckeen@nabcep.org.

HURRY! Early Bird registration expires on January 31, 2020. Register now and save \$150!

Become PWRcell-Certified to Accelerate Business

Get trained now and let Generac cultivate new solar+storage business for you! With demand for energy storage solutions booming, the [1-Day Training & Certification session](#) gives you access to Generac's booked and qualified appointments.

For \$100, training includes lunch and covers everything from product features and benefits of installation to commissioning and code. Attendees who complete this 8-hour course receive **5 NABCEP credits** and a tech ID for priority support. Companies with certified installers will also leverage:

- Leads generated from a multi-million dollar national TV advertising campaign to promote the value of solar+storage
- Lead qualification services
- Pre-scheduled in-home appointments

Given the need for solutions for resiliency, the market is ripe for integrating energy storage. . Secure your spot in a [city near you](#).

2019 Solar Installer Survey

Once again, we have partnered with [EnergySage](#) to ensure that this survey reaches as many solar installers as possible. Everyone who takes this survey will receive an advance copy of the detailed survey results, in addition to the full report.

The results of this survey help support policymakers, journalists, and solar advocates throughout the country. We hope you'll use this opportunity to share your thoughts and ideas with them.

Upcoming Conferences

NABCEP and its staff will be at several different conferences over the next few months, and we invite you all to come to our booths to catch up. Here's where you can find us.

DISTRIBUTECH™
— INTERNATIONAL —

DISTRIBUTECH International, taking place in San Antonio, TX from January 28-30, is the leading annual transmission and distribution event that addresses technologies used to move electricity from the power plant through the

transmission and distribution systems to the meter and inside the home.

NABCEP will be at booth #1540. Come and visit us!

Taking place in San Diego, CA from February 4-6, 2020, [Intersolar North America](#) is the premier solar event that connects innovators and decision makers in the solar + energy storage industry. NABCEP has partnered with Intersolar North America to provide advanced PV continuing education courses during the conference as well as develop the first ever [Solar Games](#) where teams will compete for the grand prize of \$5,000!

[Register for NABCEP CEUs during Intersolar North America here.](#)

Come join us at booth #1540.
