8. SEI (Solar Energy International)
9. Intersolar
10. REC GROUP
11. IronRidge

More to come!

Additional Opportunities for Monday Afternoon

Choose from 3 amazing opportunities on Monday, March 27th from 12:30PM to 2:30PM

Pre-Conference Opportunities: Self-Defense Class or Technical Training Sessions

[Scanfly](#) and [Roof Tech](#) will be offering live demo's!

Self-Defense Class, Sponsored by [Wesco](#)

In the Krav Maga Self Defense workshop, we will learn the ultimate form of self-defense. Learning self-defense is something women of all ages should consider. Through Krav Maga Self Defense classes, you master the art of self-defense and feel confident to walk with peace of mind. Wear comfortable clothes and come prepared for physical activity. **No CEU's**

Revolutionizing the Solar Workflow with Drone Technology, Presented by [Scanfly](#)

Want to explore the latest technology transforming site evaluations and system designs? Get hands-on experience flying drones and creating full PV layouts in an automatically-rendered photorealistic 3D environment. Attendees can expect to learn different drone types, settings and flight techniques, as well as receive an overview on production simulation, shade analysis, irradiance maps, fire setbacks, CAD and more. No prior experience required; BYOD (bring your own drone) if you have one! **Earn 2.0 CEU's**

Quality, Speed, AlphaSeal™: Live Demo of Rail-less PV Mounting! Presented by [Roof Tech](#)

In 2018, Roof Tech Inc. started an idea for their famous RT-APEX roadshows. They are bringing it to NABCEP 2023 to perform a live demo, providing the opportunity to experience a quick guide to rail-less installation. The live demo will be instructed by Kenneth Clem, Senior Southwest Manager, followed by two team members installing a small four-panel system. Ask questions, and learn from the experts how to install top-down rail-less mounts with the ease of use of AlphaSeal™! **Earn 2.0 CEU's**

New NABCEP Certification Handbook

We have made several changes to our Certification Handbook! Please download via the button below. All Board Certification applicants should read the NABCEP Certification Handbook before starting an application.

Handbook

NATC Updates - Alternative Pathway For ARTPs

NABCEP's Board of Directors recently approved 2 changes to the NABCEP Accredited Training Company (NATC) Program.

The first change is to expand the reach of NATCs from the Associate Program to include Board Certifications. Due to the success of the first year of the Program, NATC-approved companies, are now automatically eligible to register courses applicable to all NABCEP Credentials.

Manufacturers, Installation Companies and other organizations who invest in quality training and education that align to NABCEP's Credentials, may apply to become a NABCEP-Accredited Training Company. Becoming NATC approved, is the first step for non-accredited trainers to register as a NABCEP Associate Training Provider (ARTP) and/or Registered Training Provider (RTP) offering credits that can be used to qualify for advanced level Board Certifications.

The second change concerns the documentation required to confirm financial viability. Applicants will now attest to the sufficiency of their resources to support the quality training they are accrediting. No financial statements need to be uploaded.

A new NATC Handbook (version 4.3) and Application link will be available on NABCEP's website under [Education & Training](#) by February.

Enphase O&M Marketplace

ENPHASE
O&M Marketplace

We are excited to share that 365 Pronto is now the **Enphase O&M**

Marketplace. In December of 2021, 365 Pronto was acquired by Enphase. This rebranding will allow us to harness the power of Enphase while continuing to support all brands of equipment (solar PV, EV chargers, battery storage).

Our team will continue to streamline logistics, support all current and future customers, and help you as our existing and new providers maximize your business—all while providing a unified Enphase brand across the board.

There is an immediate need for your company's skills and expertise in the EV charging, solar, and battery storage markets. Make this opportunity yours and become eligible for Enphase O&M Marketplace work orders that feature an exact price, a known location, and a clear scope of work.

It is as simple as getting a push notification on your phone for a new job. When you complete a job, you get paid in 7 to 10 days.

[Onboard in 10 minutes](#) to become eligible for Enphase O&M Marketplace work orders today.
